Dear Mr. Nelson:

Industrial Photography has passed on to us your inquiry concerning our editorial services.

Our editorial department's main objective is to help you get your film in and out of the lab as quickly as possible. Our four union staff editors can creatively cut your entire show or match what you have done. They can select and edit music and sound effects, choose and direct narrators ... in other words, do everything to put your film together once it leaves your camera. Or if you have your own editor, you can acquire one of our two fully equipped editorial rooms available for rental at all times.

If you would like further information concerning our services, please let us know.

Very truly yours,

Sam C. Gale
